

## **G202 CRYSTAL GLASS POLISH**

### **PRODUCT'S MAIN FEATURES:**

- Extremely fine glass polishing
- Removes water spots and limestone quickly from windscreen and exterior glass
- Absorbs silicone and grease
- Easy hand application
- Improves clarity on glass
- Will not scratch or haze glass

### **MAIN FIELDS OF APPLICATION**

Say "goodbye" to hazy glass that is hard to see through! G202 deep cleans and polishes glass to restore perfect clarity. Ideal for use on windcreens and exterior glass, this incredible product eliminates hard water spots and absorbs road film without scratching.

Oil film and wiper marks reduce the clarity of your glass and compromise visibility. Glare from headlights or inclement weather reduces visibility further. With a simple hand application, G202 restores clarity to the glass and improves your ability to see the road clearly. This product cleans the difficult stuff that traditional glass cleaners will not touch.

### **Available packaging's sizes and accessories**

<b>Code</b>	<b>Unit</b>	<b>Size</b>
9.CCG202	Bottle and special foam applicator	150 ml

### **RUPES S.p.A**

Via Marconi 3A, 20080, Vermezzo (MI)

E-mail: info\_rupes@rupes.it - Web: www.rupes.it

### **METHOD OF USE**

-Apply G202 by hand to cool and clean automotive glass.

-Dispense a few drops onto the soft foam applicator and polish in a circular motion in a small area.

-Wipe residue away immediately with a microfiber cloth.

-Repeat in a new section until all glass has been treated.

-If product dries on surface, wipe with a damp cloth.

-Shake well before use and avoid contact with the plastic surfaces

-Follow with RUPES G401 Glass Cleaner for best results.

### **COMPOSITIONS AND SAFETY MEASURES**

Avoid contact with eyes
