

M101 – HIGH CONCENTRATED DETAILING SHAMPOO

PRODUCT'S MAIN FEATURES:

- Highly concentrated automotive shampoo
- Fragrance free
- pH-neutral formula will help protection last longer
- Easy-to-use solution rinses away completely
- Maintains and enhances water beading
- Ideal for automotive, marine, and RV use

MAIN FIELDS OF APPLICATION

M101 is an highly concentrated automotive soap formulated for effective, yet gentle cleaning. Purposely designed to combine general cleaning and the capacity to prepare the painted surfaces for the polishing and detailing process. The innovative formulation lifts grime safely off the surface while minimizing the opportunity for wash marks and surface damage. A powerful combination of surfactants and cleaning agents float grime safely off the surface without scratching.

METHOD OF USE

- Rinse vehicle from the top down, removing as much loose dirt as possible.
- Mix 2 capfuls of M101 into a bucket of water (12 L) and activate suds with a jet of water. For heavily soiled vehicles use 4 capfuls.

-Using a quality wash media, wash each panel, then rinse the vehicle until clean and no soap residue remains.

-Tips: For additional protection against scratching use a second bucket of water to rinse the wash mitt frequently before reloading with more soapy water.

-Dry surfaces with a soft drying towel.

-Always wash vehicles out of direct sunlight to keep surfaces cool and never allow soapy water to dry on the vehicle surface.

COMPOSITIONS AND SAFETY MEASURES

Avoid contact with eyes
