

RUPES®**P808
PROTECTIVE SEALANT**

- Add serious protection quickly
- Creates brilliant gloss and water beading
- Leaves surfaces slick after application
- Streak-free application
- Can be applied to wet surfaces

MAIN FIELDS OF APPLICATION

RUPES P808 is the easiest and fastest way to add substantial protection to your vehicle's exterior surfaces. This streak-free formula applies effortlessly, creating a tough barrier on the surface that shields the surface against environmental contamination, ultraviolet radiation and moisture whilst imparting a brilliant shine and high reflectivity to the surface. P808 immediately goes to work upon application and buffs to a haze and streak free shine in just seconds. Advanced technology ensures that P808 cures almost immediately so exposure to rain is no problem. This product works on top of waxes, sealants or paint coatings. It can even be applied to wet vehicles as a drying aid!

METHOD OF USE

- Lightly mist Protective Sealant on a cool and clean surface.
- Wipe with the soft microfiber towel. Flip the towel to a dry side and buff to a high-gloss shine.

Available packaging's sizes and accessories

- A second application of Protective Sealant will further enhance gloss, slickness, and protection.
- Protective Sealant can be diluted (1 part to 2 parts water) and used as a drying aid on freshly washed vehicles.
- Mist on the wet surface and buff dry with a micro-fiber drying towel.
- For best results apply to a cool surface out of direct sunlight.
- Shake well before use
