How solving one
painter's problem
led to nine decades
of satisfied painters

Product Showcase

Adhesive Debonding Unit

Ford, Mitsubishi and Nissan have approved the Chief Vulcan Adhesive Debonding Unit for the structural repair of their vehicles. It's designed to use infrared heat to break the bonds of structural adhesives joining steel, aluminum and carbon fiber panels. Technicians can de-

bond panels faster and reduce damage to underlying components.

Five-Piece Body-Forming Punch Set

The No. 89360 five-piece Body-Forming Punch Set will fit where a body shop hammer will not to form body panels in hard-to-reach areas. The punches are designed for tight-clearance spots, crevices and corners. The surfaces are polished and hardened to form sheet metal with precision. The punches are used to form curves, contours and radiuses and reach far into panels and structural members to form the sheet metal. For use on door panels, high crown panels, interior parts of body panels, fenders, rear quarter panels, truck lids and frames.

Herkules Sparkle Clean Aerosol Paint Cleaner Has New Multi-Function Cap

Herkules now offers a new cap for its aerosol paint cleaner, Sparkle Clean. Users now have two stream options: wide or narrow, enabling them to target a wide area or focus on narrow chamber with the flip of the lid. "We wanted to provide more cleaning options, and the new cap allows us to do just that," said Herkules Vice President Kevin Prost. Effective with either solvent or waterborne paints, Sparkle Clean provides a method to quickly clean stubborn paint off of paint guns immediately.

Stop A/C Leaks

LeakGuard OneShot A/C supplement from CPS Products Inc. combines LeakGuard sealer along with ExtenDye, a premium AC dye and oil enhancer, to find and permanently stop leaks. It's an oil-based sealer that will not harden, crystalize or clog AC systems or recovery equipment. ExtenDye is a super-concentrated dye that will locate leaks more effectively than regular dye.

New Random Orbital Electric Sander

RUPES' new SKORPIO E random orbital electric sander is a compact and silent orbital sander that is comfortable and easy to use. It's also extremely quiet, extremely lightweight and operates with

low vibration levels. It's available in either 3 mm or 6 mm orbit. A new multi-hole slim backing pad maximizes dust extraction on both horizontal and vertical surfaces.
