

NEW FOAM INTERFACE PADS

PRODUCT NEWS

The new **RUPES Foam Interface Pads**, designed and manufactured in-house by RUPES, are specially engineered to allow all users improve their sanding results letting the disk adapt to difference shapes of the panel and create a better, more consistent finish. They are available in 3 diameters, Ø150mm (6"), Ø125mm (5") and Ø75mm (3") as well as 2 different thicknesses, 7mm and 12mm, both with and without holes.

Features:

- Microhooks for strong hook/loop engagement and to reduce risk of hook damage on the surface.
- Premium foam to resist degradation and improve durability.
